**FAMOUS COACH
IS FOLLOWING
LINE DEFENSE**

(By Associated Press)
BERKELEY, Cal., Oct. 8.—Defensive tactics have been adopted by the University of California's football "wonder team" for the early-season games, according to Andy Smith, who last year coached the California team which won the Pacific Coast Conference championship and rolled up close to 500 points during the season.

"Students and alumni must not expect the immense scores that were rolled up last year against weak opposition," Smith said recently. "This year's football team is even better than the 1920 team, but we have the hardest schedule of games ever attempted by a coast eleven. During the season judge us by our defensive record."

"Our aim will be to win every game, to keep our goal line clean, necessarily not to roll up as many points as we possibly can on every opponent."

"We would be foolish to show our pet plans to scouts of the opposing team to be played on the following Saturday and keep our best men in for the full game for the sake of rolling up points, taking chances of

injuring them after we have a comfortable lead. It is much wiser and safer to win even by a low score, keeping something in reserve and taking as few chances as possible of injury to first-string men, than it would be to attempt a large score every Saturday at the cost of exposing every play in our repertoire to scouts of teams to be played on the following Saturdays and injuring our first-string men. Following the latter plan might mean a sweeping victory one Saturday and a defeat the next."

**OIL TREATMENT
FOR LEPROSY A
HUGE SUCCESS**

(By Associated Press)
HONOLULU, T. H., Oct. 8.—The chairman of oil treatment for leprosy, evolved by Dr. A. L. Dean, president of the University of Hawaii, has produced "remarkable results" in checking the disease in Japan, according to Dr. K. Hoshitani, director of the medical college of the imperial university of Kyoto, Japan, in an address here to leading members of the Japanese community.

Dr. Hoshitani, who is here studying the latest developments in the Dean specific, said that when the report of Dr. Dean's discovery reached Japan, chairman of the oil treatment at the medical department of the Kyoto university immediately and experiments were made on 13 leprosy patients. Two months of treatment was so effective, Dr. Hoshitani said, that it was not possible for a layman to recognize that the patients ever had been afflicted with leprosy.

"One of the patients was so glad that he came to me and told me that he had, continued himself to his home because he was ashamed of his disease," Dr. Hoshitani stated, "that on the preceding day the result of the treatment had been such that he was no longer ashamed to go out, so he went to his father and had his hair cut."

"Our experiments with the treatment resulted so favorably that the medical department of Kyoto university has received numerous requests from leprosy patients to have the treatment administered to them, but our department has been unable to meet the demand. A large number of leprosy patients are waiting eagerly to receive the treatment and this day a great many of them are waiting my return."

Dr. Hoshitani estimated that there are 10,000 persons in Japan afflicted with leprosy. The fact that the chairman of oil is a cure for leprosy was known in Japan before Dr. Dean's discovery, Dr. Hoshitani said, but the effect of taking the oil prior to Dr. Dean's experiments was so terrible that many persons preferred to suffer with leprosy rather than submit to the treatment.

**SOCIALISTS OF
ITALY MAY BE
CUT TO PIECES**

(By Associated Press)
MILAN, Oct. 8.—The Italian Socialist party which will meet here October 10 to debate a change of tactics is represented in the Italian chamber of deputies by 122 members, the strongest party numerically but it is composed of dissenting groups. If the differences of these are not composed, the party's compact representation may be divided into small fractions and cliques.

Lining up for the convention are the pro-soviet, anti-government groups, anti-Russia faction, pro-unity, anti-international and centrist tendencies. They are meeting mainly to decide whether the socialist deputies shall participate in the government or line up against the government on every proposal that it makes. The right wing, under Depetis, Favali, Treves and Modigliani, is for joining in with the Bonomi government and getting what they can in the way of legislation.

The left wing is for holding out until the socialists in full force can take possession of the government and the "spoils of victory." These are headed by Signor Serrati, director of the socialist press, and Deputy Baraleoni.

**LANDMARKS OF
UNION SQUARE
WILL BE RAZED**

(By Associated Press)
NEW YORK, Oct. 8.—Two historic landmarks—the Union Square theatre and the Morton house, which have stood for half a century in Union Square, at one time famous as the center of New York's radio, are to be razed to make way for modern structures.

The Union Square, built and opened by Sheridan Shook in 1871, began as a variety house. Later it became a first-class producing house in which many of the famous actors and actresses of the present day made their debut. It winds up its career as a burlesque theatre.

The history of the theatre and the Morton house are closely linked, as they adjoined. The latter was a great place for the meeting of the actors and managers. It was also the home of a group of politicians of the old school, of which John Kelly, the old register and Tammany leader of the East Side was dean.

**DEVELOPMENT
OF PRUNE NOW
REAL SUCCESS**

(By Associated Press)
MEDFORD, Ore., Oct. 8.—Development of a new and valuable prune which may mark a new epoch in the prune industry of Oregon, was announced today by Professor E. C. Reimer, of the Talent experiment station. The new product is the French prune, twice as large as the normal French prune, something that prune growers have long been hoping for and a result of grafting experiments started by Reimer in 1914.

**ANOTHER DOLE
FOOTBALL STAR
IS DISCOVERED**

(By Associated Press)
STANFORD UNIVERSITY, Cal., Oct. 8.—Another Dole has come to Stanford to add his bit to the long record made in athletics here by six members of his family. He is Norman Dole, from Riverside, California, and is out for a place on this year's freshman football team.

From 1895 until 1912 there were few years in which Stanford athletic teams did not include a member of the Dole family. Most of the older Doles came from Honolulu and were uncles of Norman Dole.
